

# LIST OF FIRE ALARM SYSTEMS

[www.sd3.fr](http://www.sd3.fr)

**SECURITY**  
**DETECTION**  
**DIRECT**  
**DISTRIBUTION**

**SD<sup>3</sup>** is now well known in more than 20 countries in Europe and the Middle East. Our full range of EN and CE products is successful with our partners. They find most advantages with the quality of our made in France products and our flexibility to meet their local requirements. We enjoy this achievement and will always try to satisfy our customers.

Our factories, SEFI and FARE, pillars of SD<sup>3</sup> development, are continuously in progress with new production processes and tests.

Their R&D department is always working on new products implementing more embedded functions mixed with low production costs.

All this organisation has enabled us to enrich our catalogue with new fire alarm systems, especially with a new intelligent range, in order to help you find even better answers for your projects and businesses.

Our goal is to get your confidence for improving your business and your technical competence. We wish you the best future with SD<sup>3</sup> products.

**Bernard Mongelli**  
Managing Director

# Presentation of

**SD³**, Security Detection Direct Distribution, was created in 2002. The company is a subsidiary of the first French manufacturer of fire detection systems (DEF created in 1958), and represents the export department of its factories:

**SEFI** that develops and manufactures conventional and addressable panels.

**FARE** that develops and manufactures conventional and addressable detectors.

- SD³ belongs to and represents these factories in all Europe/Middle East distribution market. We use the concept of **FACTORY OUTLET**. This way of organisation enables SD³ to be **competitive on the market**.
- SD³ works with all European countries, but also with all the countries that require **EN-54 agreement**. Our products are dedicated to **installers** specialised in security, to **distributors** with technical assistance, but also to **security systems manufacturers**. Our EN54 and CE products certification by a notified body is our export passport to build partnerships.
- SD³ offers a **complete range of fire detection** products. As we are a flexible structure directly in contact with factories and R&D departments, we are available to all kind of requests to introduce our products to your market.
- SD³ also provides an **accurate technical support** and trainings whether in your offices or in ours.

Our **independent** group has been on the market since 1958 always specialised in fire alarm systems, with the values of humanism, professionalism, autonomy of decision and long-way partnership construction.

The philosophy of SD³ is to respect these values with all our partners by listening to them with reactivity and flexibility.

## OUR FACTORIES

**FARE** was created in 1989.

They own a tool of modern production making high investment in order to ensure a large production capacity in SMD cabling. Since 2000, they have been ISO9001 certified. This emphasis on quality has enabled FARE to become today the specialist in manufacturing fire detectors meeting strictly safety standards. Adjustments and tests are 100% automatic with regular checks of machines. The business is managed by a competent and dynamic staff. FARE has also its own R&D department able to design new detectors or customise them for SD<sup>3</sup> partners.

**SEFI** was created in 1970.

They manufacture conventional and addressable fire alarm panels.

SEFI owns last generation production tool SMD machines and sophisticated monitoring tests.

These qualities help them to be updated with requirements of ISO, CE, AFNOR and VDS.

SEFI has also its own R&D department able to adapt and customise panels for SD<sup>3</sup> partners.

These 2 factories produce and manage the SD<sup>3</sup> equipments delivered to its customers, by a logistic platform that groups all the products and makes a single customer delivery with multi suppliers.

With this organisation, SD<sup>3</sup> is the sales export department for SEFI and FARE.

Two others suppliers have been added to this organisation,

Sessy for accessories and Deltaerre for gas detection and power supply.

## Customers

### **Commercial relationships, Technical trainings, Assistance.**

Distribution under the factories  
brand in Europe/Middle East  
Location Massy (Paris) FRANCE

## FIRE ALARM SYSTEM

### **FARE**

Detectors, call points, modules  
Location Pithiviers FRANCE  
80km from Paris

### **SEFI**

Conventional and Intelligent/Addressable panels.  
Location Pithiviers FRANCE  
80km from Paris

**BENELUX**  
For Belgium, Holland,  
Luxembourg

## TEM FACTORIES

**SESSY**  
Accessories  
Location Massy (Paris) FRANCE

**DELTAERRE**  
Gas detectors and panels, power supply  
Location Verona ITALY

## PANELS

2 zones	
	<b>ALPHA 2</b> 2 zones fire detection conventional panel
<i>ALPHA 2 Options</i>	
	<b>SR2/24</b> 2 ways relay output module, NO-NC 30V/1A
From 4 up to 12 zones	
	<b>ALPHA 4/8/12</b> 12 zones fire detection conventional panel equipped with 4 zones (max 12 zones) - EN54-2, EN54-4
<i>ALPHA 4/8/12 Options</i>	
	<b>EX4A4</b> 4 zones expansion board
	<b>EX4A4Ex</b> 4 zones expansion board Ex version to be used with explosion hasard area detectors
	<b>DEAG</b> 1 zone extinguishing zone board
	<b>R12P2</b> 12 ways relay output module, NO-NC 30V/1A
	<b>R7P2</b> 7 ways relay output module, NO-NC 30V/1A
	<b>REP4R</b> 4 ways relay output module, NO-NC 30V/1A
	<b>COA4812</b> Empty box covered to contain extra batteries

# CONVENTIONAL SYSTEMS

From 16 up to 248 zones		
Conventional modular fire control panel (max 248 zones), equipped with 16 zones expandable to 248 - alphanumeric display 2x16 - Mimic panel integrated for 32 zones (alarm, fault, disable, test)		<b>ALPHA 16/248</b>
<i>ALPHA 16/248 Options</i>		
8 zones expansion board		<b>EX8Z</b>
8 ways relay module		<b>EX8R</b>
Accessories for panels		
Remote indicator panel with leds and function keys		<b>TR-SDI</b>
10 zones remote indicator panel with leds and function keys		<b>TRI 10</b>

## FIRE DETECTORS

05 range		
Conventional optical smoke detector, EN54-7 , CE according to CPD		<b>OC05</b>
Conventional rate of rise + fixed heat detector, T° = 62°C, + 9°C/min, EN54-5 , CE according to CPD		<b>TRC05</b>
Conventional fixed heat detector, T° = 62°C, EN54-5, CE according to CPD		<b>TSC05-A1S</b>
Conventional fixed heat detector, T° = 75°C, EN54-5, CE according to CPD		<b>TSC05-BS</b>

# CONVENTIONAL SYSTEMS

## FIRE DETECTORS

### Y2 range

#### MCY2+ S95

Conventional multisensor (optical/heat) detector, EN54-7 + base

#### IRY2+S95

Conventional infrared flame detector - EN54-10 + base

#### SUV+ES

Conventional UV flame detector + base

### 12Vdc application with 05 range

#### OC05.12

Conventional optical smoke detector for 12V security type systems

#### TRC05.12

Conventional rate of rise + fixed heat detector,  $T^{\circ} = 62^{\circ}\text{C}$ ,  $+9^{\circ}\text{C}/\text{min}$ , for 12V security type systems

#### TSC05-A1S.12

Conventional fixed heat detector,  $T^{\circ} = 62^{\circ}\text{C}$ , for 12V security type systems

#### TSC05-BS.12

Conventional fixed heat detector,  $T^{\circ} = 75^{\circ}\text{C}$ , for 12Vdc security type systems

### Bases

#### S05

Universal base for 05-range conventional and addressable detectors

#### SOUND05

Base with internal sounder 90db @ 1m

#### R05

Plug in relay contacts circuit (12V or 24V) for 05 detectors (to be plugged in S05)

### Accessories for bases

#### CS05

Protection plate for S05 base

## CONVENTIONAL SYSTEMS

Waterproof seal for base	<b>PF118</b>	
Universal base with glands hole for 05 range	<b>BRI/EM</b>	
Waterproof universal base with glands for 05 range (IP65)	<b>BRI</b>	
Protection grid	<b>GAV</b>	

## MANUAL CALL POINTS

<b>05 range</b>		
Conventional manual call point resettable, EN54-11 CE according to CPD	<b>DMC05</b>	
Conventional manual call point resettable with led, EN54-11 CE according to CPD	<b>DMCL05</b>	
<b>05 MCP accessories</b>		
Plastic base for flush mounting MCP	<b>PEDM</b>	
Transparent lift-up protective cover for MCP, double action	<b>VPDM</b>	
Kit of 10 reset keys for MCP	<b>KCTDM</b>	
Test key	<b>CTDM</b>	

# CONVENTIONAL SYSTEMS

## MANUAL CALL POINTS

**BMY2**

Conventional manual call point resettable

**BMLY2**

Conventional manual call point resettable with led

**2470 PB**

Resettable conventional manual call point blue color, 1 change over contact

**2470 PG**

Resettable conventional manual call point yellow color, 1 change over contact

**BBGCAY2**

Plastic base for flush mounting MCP

**CDAY2**

Transparent lift-up protective cover for MCP

**KB10Y2**

Kit of 10 reset keys for MCP

### Y2 range

### Miscellaneous

### Accessories for MCP

# CONVENTIONAL SYSTEMS

## AIR DUCT DETECTION

Duct detector housing for 05 range (detector not included)

**BTG05**

## STAND ALONE SMOKE ALARM DETECTOR

Complete domestic smoke alarm detector with 9V battery and CE EN14604 according to CPD

**VESTA**

## LINEAR HEAT DETECTION

Heat detection cable 68° (price per meter)

**HC68**

Heat detection cable 105° (price per meter)

**HC105**

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

## PANELS

		<b>From 1 to 128 addresses</b>	
	<b>HEPHAIS 128</b>	Intelligent/interactive control panel, 128 addresses, 2 loops or 4 spur circuits (open circuit with max 32 addresses), EN54-2, EN54-4	
	<b>TELEHEPHAIS 128 E</b>	Software programming tool for HEPHAIS 128	
		<i>HEPHAIS 128 Options</i>	
	<b>R7P2</b>	7 ways relay output module, NO-NC 30V/1A	
	<b>R12P2</b>	12 ways relay output module, NO-NC 30V/1A	
	<b>FMC1</b>	RS232 to 422/485 converter	
	<b>ALPHA R-NA</b>	Remote user interface panel with serial connection, alphanumeric display 160 characters and keyboard ( to be used with FMC1)	
		<b>From 1 to 400 addresses</b>	
	<b>HEPHAIS 400</b>	Intelligent/interactive control panel, 400 addresses, 2 loops (max 200 addresses per loop) or 4 spur circuits (open circuit with max 32 addresses) , EN54-2, EN54-4	
	<b>HEPHAIS 400/S19</b>	Intelligent/interactive control panel, 400 addresses, 2 loops (max 200 addresses per loop) or 4 spur circuits (open circuit with max 32 addresses) , EN54-2, EN54-4, 19inches, to be mounted in cabinet	
	<b>HEPHAIS 400/L</b>	Intelligent/interactive control panel, 400 addresses, 2 loops (max 200 addresses per loop) or 4 spur circuits (open circuit with max 32 addresses) , EN54-2, EN54-4, in large box	
	<b>TELEHEPHAIS 400 E</b>	Software programming tool for HEPHAIS 400	

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

HEPHAIS 400 Options		
7 ways relay module, NO-NC 30V/1A	<b>R7P2</b>	
12 ways relay output module, NO-NC 30V/1A	<b>R12P2</b>	
20 ways relay module NO-NC 30V/1A	<b>C20R</b>	
Communication board for RS422 & RS485 management (needed to connect graphic monitoring graphic software or/and ALPHARNA)	<b>ISORS</b>	
Remote user interface panel with serial connection, alphanumeric display 160 characters and keyboard	<b>ALPHA R-NA</b>	
Isolator with connection for ramification of 32 addresses to be plugged inside the panel	<b>MIV+</b>	
From 1 to 1600 addresses		
Modular Intelligent/Interactive fire control panel max 1600 points - supplied as standard for 400 points on 2 loops (max 200 addresses/loop) or 4 spur circuits, EN54-2, EN 54-4, in large box, networkable	<b>HEPHAIS 1600-400/L</b>	
Modular Intelligent/Interactive fire control panel max 1600 points - supplied as standard for 400 points on 2 loops (max 200 addresses/loop) or 4 spur circuits, EN54-2, EN 54-4, in small box, networkable	<b>HEPHAIS 1600-400/S</b>	
Modular Intelligent/Interactive fire control panel max 1600 points - supplied as standard for 400 points on 2 loops (max 200 addresses/loop) or 4 spur circuits, EN54-2, EN 54-4, in large box, black box without front panel, networkable	<b>HEPHAIS 1600-400/L BB</b>	
Modular Intelligent/Interactive fire control panel max 1600 points supplied as standard for 400 points on 2 loops (max 200 addresses/loop) or 4 spur circuits, EN54-2, EN 54-4, in small box, black box without front panel, networkable	<b>HEPHAIS 1600-400/S BB</b>	
Software programming tool for HEPHAIS 1600-400	<b>TELEHEPHAIS 1600 E</b>	

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

## PANELS

<i>HEPHAIS 1600 Options</i>	
	<b>MG2B</b> Extension module for 4 spur circuits (max 32 points per circuit) or 2 loops (max 200 points per loop), for 05 intelligent detectors range
	<b>MGNET</b> Network card
	<b>RF H 1600</b> User interface panel with alphanumeric display 160 characters and keyboard
	<b>ALPHA RE</b> Remote user interface panel with serial connection, alphanumeric display 160 characters and keyboard
	<b>R7P2</b> 7 ways relay output module, NO-NC 30V/1A
	<b>R12P2</b> 12 ways relay output module, NO-NC 30V/1A
	<b>C20R</b> 20 ways relay output module NO-NC 30V/1A
	<b>X4EVAC</b> 4 ways sounder circuit extension board
	<b>IMP/E</b> Serial external printer
	<b>MIV+</b> Isolator with connection for ramification of 32 addresses to be plugged inside the panel
<b>Analogue panel with 05 range</b>	
	<b>ALPHA500-125</b> Modular analogue fire control panel max 500 points - supplied as standard for 125 points on 2 loops or 4 spur circuits (including rack control panel), EN54-2, EN54-4
	<b>ALPHA1000-125</b> Modular analogue fire control panel max 1000 points - supplied as standard for 125 points on 2 loops or 4 spur circuits (including rack control panel), EN54-2, EN54-4

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

<p>Master and command modular analogue panel, with Graphic User interface, able to command and monitor 3 slaves ALPHA 500/1000 panels. Supplied as standard for 125 points on 2 loops or 4 spur circuits. Total management capacity of 4000 addresses</p>	<p><b>EGRAPHALPHA MASTER-1000</b></p>	
<b>ALPHA 500/1000 Options</b>		
<p>Extension module for 4 spur circuits (max 32 points per circuit) or 2 loops (max 125 points), for 05 intelligent detectors range</p>	<p><b>MD1B05</b></p>	
<p>Software programming tool</p>	<p><b>TELEALPHA 1000</b></p>	
<p>Master command and control panel emulator</p>	<p><b>EGRAPHALPHA</b></p>	
<p>User interface panel with alphanumeric display 160 characters and keyboard, rack mount version 19"</p>	<p><b>ESAL D 3U</b></p>	
<p>20 ways relay output module NO-NC 30V/1A</p>	<p><b>C20R</b></p>	
<p>Flush mounted printer</p>	<p><b>IMP</b></p>	
<p>Serial external printer</p>	<p><b>IMP/E</b></p>	
<p>Pack of 10 thermic paper rolls</p>	<p><b>KCT10</b></p>	
<p>Remote user interface panel with serial connection, alphanumeric display 160 characters and keyboard</p>	<p><b>ALPHA R-NA</b></p>	
<p>4 ways sounder circuit extension board</p>	<p><b>X4EVAC</b></p>	

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

## INTELLIGENT FIRE DETECTORS

### 05 range

**OA05**

Intelligent/interactive optical smoke detector, microprocessor based EN54-7 edition 2000, CE according to CPD

**TA05**

Intelligent/interactive heat detector (static or/and rate of rise), microprocessor based EN54-7 edition 2000, CE according to CPD

**MA05**

Intelligent/interactive optical-heat detector, multicriteria, micro processor based EN54-7 edition 2000, CE according to CPD

### A95 range (compatible with 05 range)

**IR95+S95**

Analogue/addressable infrared flame detector, EN54-10

### Bases

**S05**

Universal base for 05-range conventional and addressable detectors

**SOUND05**

Base with internal sounder 90db @ 1m

**ICC05**

Plug in isolator board for 05 detectors (to be plugged in S05)

**R05**

Plug in relay contacts circuit (12V or 24V) for 05 detectors (to be plugged in S05)

### Accessories for bases

**CS05**

Protection plate for S05 base

**PF118**

Waterproof seal for base

## INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

Universal base with glands hole for 05 range	<b>BRI/EM</b>
Waterproof universal base with glands for 05 range (IP65)	<b>BRI</b>
Protection grid	<b>GAV</b>

## ADDRESSABLE MANUAL CALL POINTS

05 range	
Addressable manual call point - resettable with integrated isolator, EN54-11, EN54-17, CE according to CPD	<b>DMA05</b>
Addressable manual call point - resettable with integrated isolator and programmable relay output, EN54-11, EN54-17, EN54-18, CE according to CPD	<b>DMA05R</b>
05 MCP accessories	
Plastic base for flush mounting MCP	<b>PEDM</b>
Transparent lift-up protective cover for MCP, double action	<b>VPDM</b>
Kit of 10 reset keys for MCP	<b>KCTDM</b>
Test key	<b>CTDM</b>

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

## ADDRESSABLE MANUAL CALL POINTS

### A95 range (compatible with 05 range)

**BA95** Addressable manual call point with reset

**DM95** Addressable manual call point - resettable with isolator

**BAM95** Addressable master manual call point with reset

**BA95S** Waterproof addressable manual call point with reset

### Accessories for MCP

**BBGCA** Flush mounting plastic frame for MCP

**CDAY2** Transparent lift-up protective cover for MCP

**KB10Y2** Kit of 10 reset keys for MCP

## LOOP SOUNDERS

**AVSA/W** Addressable high powered piezoelectric sounder for indoor use (white colour) for HEPHAIS 400 and 1600 range

**AVSA/R** Addressable high powered piezoelectric sounder for indoor use (red colour) for HEPHAIS 400 and 1600 range

# INTELLIGENT/ADDRESSABLE PANELS AND DETECTORS

## INTERFACE LOOP UNITS

Addressable zone interface module for max 32 conventional points	<b>MAY1</b>	
Conventional zone interface module for temperature cable	<b>MAY1Tcable</b>	
Addressable input module with backbox (exists also in RAIL DIN version)	<b>AT95/B</b>	
Addressable input/output module with backbox (exists also in RAIL DIN version)	<b>ATC95/B</b>	
Addressable 4 inputs module with backbox (exists also in RAIL DIN version)	<b>FM4I</b>	
Addressable 2 inputs + 2 outputs module with backbox (exists also in RAIL DIN version)	<b>FM2IO</b>	
Addressable 4 inputs + 4 outputs module with backbox (exists also in RAIL DIN version)	<b>FM4IO</b>	
Addressable 4 monitored input + 4 monitored outputs	<b>ED4L</b>	
Addressable double-knock input gas control module with backbox)	<b>FMG/B</b>	
Isolator including backbox with connection for ramification of 32 addresses	<b>MIV+/B</b>	
Loop isolator module with backbox	<b>ISO95</b>	

## LINEAR SMOKE DETECTORS

<b>DLFB I</b>	Intelligent/Interactive beam detector (loop powered) for linear smoke detection supplied with reflector for distance from 3 up to 100 meters, EN54-12 (VDS, AFNOR), CE according to CPD
<b>DLFB C</b>	Conventional beam detector (loop powered) for linear smoke detection supplied with reflector for distance from 3 up to 100 meters, EN54-12 (VDS, AFNOR), CE according to CPD
<b>DLFB R</b>	Relay beam detector for linear smoke detection - supplied with reflector for distance from 3 up to 100 meters, EN54-12 (VDS, AFNOR), CE according to CPD
<b>Accessories for DLFB</b>	
<b>BEAM-BR</b>	Remote box for reset beam

## AIR SAMPLING DETECTION WITH SMOKE DETECTORS

	Conventional
<b>CMF Y2-2/1</b>	Conventional air sampling panel with max 2 channels supplied with 1 air sampling channel
<b>CMF Y2-2/2</b>	Conventional air sampling panel with max 2 channels supplied with 2 air sampling channels
<b>CMF Y2-4/1</b>	Conventional air sampling panel with max 4 channels supplied with 1 air sampling channel and power supply
<b>CMF Y2-4/2</b>	Conventional air sampling panel with max 4 channels supplied with 2 air sampling channels and power supply
<b>CMF Y2-4/3</b>	Conventional air sampling panel with max 4 channels supplied with 3 air sampling channels and power supply
<b>CMF Y2-4/4</b>	Conventional air sampling panel with max 4 channels supplied with 4 air sampling channels and power supply

# AIR SAMPLING DETECTION WITH SMOKE DETECTORS

## Conventional CMF options

Local air sampling channel module

**DRAC-C**

Remote air sampling channel module

**DRAC-CD**

## Addressable

Addressable air sampling panel with max 2 channels supplied with 1 air sampling channel

**CMF A95-2/1**

Addressable air sampling panel with max 2 channels supplied with 2 air sampling channels

**CMF A95-2/2**

Addressable air sampling panel with max 4 channels supplied with 1 air sampling channel and power supply

**CMF A95-4/1**

Addressable air sampling panel with max 4 channels supplied with 2 air sampling channels and power supply

**CMF A95-4/2**

Addressable air sampling panel with max 4 channels supplied with 3 air sampling channels and power supply

**CMF A95-4/3**

Addressable air sampling panel with max 4 channels supplied with 4 air sampling channels and power supply

**CMF A95-4/4**

## Addressable CMF options

Local air sampling channel module

**DRAC-A**

Remote air sampling channel module

**DRAC-AD**

## Accessories for CMF

Air sampling tube termination

**CMF CAP**

## AIR SAMPLING DETECTION WITH HIGH SENSITIVITY LASER DETECTOR

### **L4/LASER4**

High sensitivity smoke detector (without LCD display)

#### *LASER4 options*

### **L4/LAF4**

Laser 4 User/remote display panel

### **L4/BMA**

Display support for wall mounting

### **L4/R19**

Panel for 3 display panels

### **L4/RG6**

Communication cable PC/detector

### **L4/SNIFF**

System design software

#### *Aspirating pipes*

### **L4/25/T3**

Air Sampling Pipe 25mm (3m length)

### **L4/25/C90**

90° Elbow 25mm

### **L4/25/C45**

45° Elbow 25mm

### **L4/25/TE**

Equal Tee Piece 25mm

### **L4/25/MA**

Straight Socket 25mm

### **L4/25/BO**

End Cap 25mm

## AIR SAMPLING DETECTION WITH HIGH SENSITIVITY LASER DETECTOR

Union Socket 25mm	<b>L4/25/RU</b>	
Capillary Tube (10mm OD; 8mm ID) 50m reel	<b>L4/25/CA</b>	
Mini Sample Point	<b>L4/25/CP</b>	
Flush Sample Point	<b>L4/25/EP</b>	
Mini Sampling Point Assembly c/w Remote Sample Point Adaptor	<b>L4/25/PCI</b>	
Mini Sampling Point Assembly c/w End Cap Adaptor	<b>L4/25/PCF</b>	
Flush Sampling Point Assembly c/w Remote Sample Point Adaptor	<b>L4/25/PFI</b>	
Flush Sampling Point Assembly c/w End Cap Adaptor	<b>L4/25/PPF</b>	
Sniffer Pipe Solvent Cement (250 ml) complete with brush	<b>L4/CO</b>	

## EXPLOSION HAZARD AREA PRODUCTS

### VIREX

Conventional infrared flame detector - Ex version, EN54-10

### VOEX

Conventional optical smoke detector - Ex version, EN54-7

### VTEX

Conventional rate of rise + fixed heat detector, Ex version, EN54-5, EN54-9

### SVEX

Mounting base - Ex version

### DMEX

Conventional call point, Ex version

### AVSEX

Ex Sounder 100db

### MAY1-EX

Zone interface module for max 32 conventional points  
Ex version

### SBEX BZ1

Safety barrier

### SBEX BZ3

Safety barrier exclusively for Ex sounders

## PROGRAMMING AND MAINTENANCE TOOL

### MINIBT05

Portable tool for programming / test / maintenance of detectors and addressable devices (for 05 range)

### KIT 95-05

Adapter for 05 sensor for MINIBT95

### KIT 05-95

Adapter for 95 sensor for MINIBT05

## TEST, MOUNTING, AND MAINTENANCE TOOL

Smoke detector tester	<b>3010</b>	
Aerosol bottle of 250 ml (pack of 12)	<b>3015</b>	
Heat detector tester (head and 12V controller)	<b>3053</b>	
12V charger	<b>3059</b>	
05 removal tool	<b>4065</b>	
95 removal tool	<b>4051</b>	
Telescopic access pole 2x1.50m	<b>2001</b>	
Telescopic access pole 2x2.00m	<b>2002</b>	
1.00m extension	<b>1001</b>	
1.20m extension	<b>1003</b>	
1.50m extension	<b>1004</b>	
2.00m extension	<b>1005</b>	

## ACCESSORIES FOR FIRE SYSTEMS

**IND05**

Remote alarm indicator

**IND05E**

Remote alarm waterproof indicator

**AVS 2000/W**

High powered piezoelectric sounder for indoor use (white colour), EN54-3

**AVS 2000/R**

High powered piezoelectric sounder for indoor use (red colour), EN54-3

**AVSU EFP**

High powered piezoelectric sounder for external use (IP65)

**AVSFLASH**

xenon beacon

**AVS2000FLASH**

Combined sounder and beacon

**AV160LF24**

Piezo internal sounder with led flash

**P7265**

Optical acoustic alarm panel, lighting with high luminosity LED IP43

**P7268**

Auto powered optical acoustic alarm panel, lighting with high luminosity LED IP43

**P7264**

Optical acoustic alarm panel, lighting with high luminosity LED IP43

**P7266**

Auto powered optical acoustic alarm panel, lighting with high luminosity LED IP43

**4476-24**

Red Internal bell, diameter 150mm, 93 db, 24Vdc

**4479-24**

Red external bell, 6 inches diameter, 93 db, 24Vdc

## ACCESSORIES FOR FIRE SYSTEMS

Electromagnetic door release unit in metal case, 50daN, 24V	<b>VTR0241210</b>
Flooding and moisture detector with free voltage contact relay, 12/24V dc	<b>1450</b>
IP 67 liquid detector with free voltage contact relay, 12/24Vdc	<b>2450</b>
Communicator transmitter with 4 channels, 7 numbers and display	<b>W74345</b>
Converter module USB/232	<b>USB/232</b>

**W74345**

**USB/232**

## MONITORING SOFTWARE

Base remote map monitoring software for 8 panels (to be completed with MAPSPPLUS)	<b>MAPSKITALPHA</b>
Additional module for 1 panel management	<b>MAPSPPLUSALPHA</b>
Net version base remote map monitoring software (to be completed with MAPSPPLUSALPHANET)	<b>MAPSKITALPHANET</b>
Net version additional module for management of 1 panel	<b>MAPSPPLUSALPHANET</b>
Net version additional module for management of 4 panels	<b>MAPSPPLUSALPHANET4</b>
TCPIP interface for analogue panel (MA53 422/232 converter + Procontroller 232/TCPIP converter)	<b>JBUS/IP</b>
TCPIP interface for 4 analogue panel (MA53 422/232 converter + Procontroller 232/TCPIP converter)	<b>JBUS/IP/4</b>
Converter module RS232/RS422 with power supply	<b>MA53</b>

# GAS DETECTION

## PANELS

### ALPHAGAS-256

Addressable modular gas control panel (max 256 gas detectors), - alphanumeric display 2x16 - Mimic panel integrated for 8 zones (alarm, fault, disable, test), includes already 1 x MG2LOOP module to be completed with max 1 x MG2LOOP more

### MG2LOOP

Extension internal module for 2 gas loops (total 128 addresses for the board, 128 max addresses per loop)

### EX8R

8 ways relay module

### ALPHAGAS-256 options

### FMK-GAS

Loop gas module interface, to be plugged into gas detectors

### PRG GAS

Test tool for gas detector

## GAS DETECTORS

### DRS900

Methane gas detector, CH<sub>4</sub>, IP55

### DRS902

Petrol steam gas detector, IP55

### DRS903

Carbon monoxide gas detector, CO, IP55

### DRS904

Hydrogene gas detector, H<sub>2</sub>, IP55

### DRS905

Liquid propan gas detector, LPG, IP55

### DRS906

Propan gas detector, C<sub>3</sub>H<sub>8</sub>, IP55

### DRS909

Acetilene gas detector, C<sub>2</sub>H<sub>2</sub>, IP55

## POWER SUPPLY

Power supply in box 24V-2A, including output relays for mains fault and battery fault, EN54-4, CE according to CPD

**CEAL224B**

Power supply in box 24V-4A, including output relays for mains fault and battery fault, EN54-4, CE according to CPD

**CEAL424B**

Power supply in box 24V-1A

**AL124B**

Power supply in box 24V-4A

**AL424B**

Power supply in box 24V-10A

**AL1024B**

## VOICE EVACUATION SYSTEMS

Voice evacuation central panel

**SEV-C**

Satellite sounder 105db

**DTR70**

Satellite sounder 115db

**DTR44**

High powered Voice sounder 100db@1m, (8s message), red colour

**DSV110/R**

High powered piezoelectric sounder for indoor use (white colour), EN54-3

**DSV110/W**

## ELECTRIC LOCK FOR EMERGENCY EXIT DOORS

Electric lock for emergency exit doors with single action

**DS3000**

Electric lock for emergency exit doors with double action

**DS2009 5X**
